TAGOMATIC is a game of travel. The object is to figure out where the picture of a person's bike is and then get there take the same picture but with your bike and post it first. Then you get to post a picture of your bike next to something and wait to see who figures it out and gets there first. So here are the rules

1. Must be within a 100 miles of Cheyenne WY.
2. The picture must have your motorcycle in it. People are optional.
3. The item must be permanent (signs, buildings, statues, landscape etc.). Taking a picture of Fred next to your bike is not going to work unless Fred is a statue.
4. Once you find the place you must take the picture as close to the same way as the original.
5. Then you must post your picture and where it is located. A new picture of your bike at a new location must then be posted at that time (have one ready).
6. These areas must be assessable no private property unless the picture is taken from public area.
7. You must have FUN doing this.

More rules will be added if needed. To post and view your pictures you must send them to Marla the first one of your bike at the old location then the new one with your bike in the picture. They need to be sent at the same time
